

ABDULMUI'Z ABDULWASIU

React Native Developer

abdulwasiumuiz@gmail.com | (+234)8149174338 | Portfolio: <https://aomuiz.vercel.app/>
| LinkedIn: [abdulmuize-abdulwasiu](#) | GitHub: [AOMuiz](#)

PROFILE

Highly experienced React Native Developer with a proven track record of architecting and delivering impactful cross-platform mobile solutions. Expert in optimizing user engagement and application performance through clean, scalable code and seamless UI/UX design. Adept at leading mobile development initiatives, fostering cross-functional collaboration, and implementing robust development practices for native-like experiences.

EXPERIENCE

MYPAL INC

Remote, Nigeria

Lead Frontend Developer

05/2024 - Present

- Spearheaded the development of the [company's website](#), delivering modern, responsive designs that significantly increased user engagement and conversions.
- Led development of a comprehensive business administration platform, empowering diverse hospitality and service industries with streamlined operations.
- Architected a multi-tenant dashboard and real-time analytics system, providing tailored features and critical insights into business performance.
- Developed internal admin panel, boosting operational efficiency and data accessibility.
- Collaborated cross-functionally to deliver high-quality features and optimize performance.
- Implemented advanced data visualization and a responsive component library, enhancing user experience and accelerating feature delivery for on-the-go management.

BRIDGE MERCHANT

Remote, Nigeria

Mobile/React Native Developer

01/2025 - 03/2025

- Led development of Prizaar app, enabling users to track real-time prices.
- Designed custom, interactive UI, enhancing user engagement and session duration.
- Integrated internal APIs for real-time pricing and managed notifications via Firebase.
- Implemented offline caching and sync, improving app usage in low-connectivity areas.

- Optimized app performance, significantly reducing load times and enhancing responsiveness.

MUTOON HUB

Remote, Lagos Nigeria

Mobile Developer (React Native)

03/2023 - 10/2024

- Led full-stack mobile development of a comprehensive e-learning application (React Native, TypeScript, Expo).
- Architected and implemented core features including an intuitive PDF reader, versatile multi-reciter audio player, and advanced search, enriching the learning experience.
- Developed sophisticated audio streaming with customizable playback controls and background audio, supporting flexible study and memorization.
- Built robust offline-first architecture, empowering users with uninterrupted access to learning materials regardless of connectivity.
- Created a comprehensive notification system and integrated modern state management, ensuring a highly responsive and engaging user experience.
- Wrote and maintained unit/integration tests, improving code quality and reliability.

ATAASIL UNIVERSITY

Remote, Saudi Arabia

Frontend Engineer

09/2022 - 2024

- Designed and developed a responsive UI for the university's LMS, resulting in improved student engagement.
- Implemented comprehensive bilingual support (Arabic/English) with RTL handling, greatly improving accessibility for a diverse user base.
- Created a certificate generation and verification system, providing students with validated recognition of their achievements.
- Designed a responsive admin dashboard with analytics and user management, streamlining operations and enabling data-driven decisions for educators.
- Collaborated using Agile methodologies, boosting team productivity through Git/GitHub.
- Maintained front-end documentation, ensuring code consistency and efficiency across the entire project.

LEARNBOOST

Remote, Nigeria

Mobile Developer(React Native)

07/2023 - 11/2023

- Developed child-focused learning app with intuitive UI and smooth video playback.
- Integrated subscription payment system and dynamic screen orientation.
- Managed SQLite database for offline access and designed access control logic.

- Enhanced data fetching with React Query for an efficient and user-friendly learning app.

INNOVATICS.AI

Remote, United States

Frontend Developer(React)

01/2023 - 04/2023

- Designed and developed a cross-browser compatible [course platform](#) using React and Next.js.
- Implemented features like course tracking and quizzes, increasing user satisfaction by 30%.
- Integrated Firebase for data storage and authentication.
- Collaborated closely with UI/UX teams to ensure pixel-perfect design implementation.

SKILLS

- JavaScript/TypeScript
- **CSS Frameworks:** Tailwind, Sass, MUI, CSS-in-JS
- **Animations & UI Enhancements:** GSAP, Framer Motion
- **API Integration & DB Management:** GraphQL, REST, Firebase, SQL, SQLite
- **React/Next.js:** Expertise in developing scalable, maintainable apps
- **State Management:** Redux, Redux Toolkit, Zustand, Context API
- **Soft Skills:** Effective communication, Strong collaboration
- **Mobile Frameworks:** React Native/Expo
- **Continuous Integration & Version Control:** Git, GitHub, GitHub Actions
- **Other Expertise:** Design systems, E2E Testing, Performance optimization, SEO

EDUCATION

UNIVERSITY OF ILORIN

Ilorin, Nigeria

Bachelor of Science, Major in Chemistry

2016 – 2020

CERTIFICATIONS AND TRAININGS

- Google Africa Developer Training Program - **Mobile Web Specialist | February 2021**
- Responsive Web Design - FreeCodeCamp | **June 2020**
- Technical Support Fundamentals – **Google; Coursera**

VOLUNTEERING

ALC - Andela Learning Community | GADS Mentor (Mobile Web Specialist) 2021 – 2022

- Guided and supervised learners, assisting them in career development and fostering their learning journeys.
- Facilitated hands-on projects that improved learners' proficiency in mobile web development.
